- HIGHLY SUITED
- SUITABLE WITH RESERVATIONS
- NOT SUITABLE

USE ME FOR

All concrete types Inc. heavily reinforced
All bricks including class A / Indian stone / granite / marble
stone/quartzite/roof tiles and paviors
Occasional use in small metal sections / abrasive materials
and asphalt

FEATURES

- Segments > 13 mm / Conical
- Core > Super thin core with laser incisions - rubber filled
- Gullets > 30° Gullets
- Adhesion > Laser Welded
- Perform > Excellent speed of cut & output
- Other > Low vibration / Undercut protected / Shot-blasted

SIZES & MOST RELEVANT MACHINE TYPE

DIMENSIONS	DPU/C-BTS-S
(12") 300 x 20.00 mm	300DPU/C-BTS-S
(14") 350 x 20.00 mm	350DPU/C-BTS-S

Please enquire about alternative machine types

**SPECIFICALLY DESIGNED FOR
BATTERY POWERED SAWS TO HELP
REDUCE NOISE POLLUTION ON SITE**

CAN BE USED ON ALL HAND SAWS

LASER CUTS IN CORE

Heat resistant rubber inserts to reduce noise

SHOT-BLASTED CORE

For undercut protection

13MM LASER WELDED CONICAL SEGMENTS

Lower vibration thanks to the consistent gap between the segments. Increase in product life thanks to the greater size of the segment and a decrease in noise due to less air distortion in motion

30° GULLETS

In line, 30° degree gullets help clear debris faster and they improve life as a result

THIN CORE

Reduced contact area - therefore reduced noise & dust
