USE ME FOR

Asphalt / abrasive sand or grit stone, hot rolled asphalt
Cellular concrete block / cement screed and green concrete
Occasional use in soft concrete paviors / concrete roof tiles and cement screed

FEATURES

- Segments > 13mm / Conical / 4 Deep Draft / SDT
- Core > Ventilated / Shot-blasted
- Gullets > Keyhole
- Adhesion > Laser Welded
- Perform > Maximum speed of cut & output
- Other > Low vibration / Undercut protected

SIZES & MOST RELEVANT MACHINE TYPE

DIMENSIONS	DUA-SDT
(12") 300 x 20.00	300DUA-SDT ∞
(14") 350 x 25.40	350DUA-SDT ∞

4 DEEP DRAFT SEGMENTS
Give undercut protection, whilst cutting in abrasive materials such as asphalt or abrasive stone

KEYHOLE GULLETS
Clear debris faster when cutting through abrasive materials

COOLING HOLES
Keep the steel core cool. Prevents distortion of core. Keeping the diamond matrix cool in segments will improve speed and life.

13MM CONICAL LASER WELDED SEGMENTS
Lower vibration thanks to consistent gap between segments. Increase in product life thanks to greater size of segment and decrease in noise due to less air distortion in motion

SPACED DIAMOND TECHNOLOGY
Grid layout allows each diamond to work optimally & keep cool. Ability to give 100% consistency of performance with all diamond fully utilised at all times

SHOT-BLASTED CORE
For undercut protection
